IPP is a secure Government wide, Web-based invoice processing service offered free of charge to Government Agencies and their suppliers.

A one-time enrollment in IPP will generate a series of emails that will be sent to the point of contact established in your SAM.gov account. The first email will be from "IPP User Administration" and will contain the IPP login ID and link to the IPP Website. A second email from "Treasury User Administration" containing the password will be sent within 24 hours. Once both emails are received, the Contractor will login to the IPP application and complete the registration process. After login, you will be able to access IPP training information.

IPP System benefits include the ability to create invoices directly from a contract award and submit them electronically, as well as:

- Email notification when invoice(s) are paid

- Online payment history

- Email notification when you are awarded a new contract

The email notification of payment is sent when a payment is distributed to your bank account and will include all pertinent payment information. For additional information, please visit the www.ipp.gov website to learn more. The IPP Customer Support Desk is available to assist users Monday through Friday (excluding Federal holidays) from 8 a.m. to 6 p.m. ET, to answer questions related to accessing IPP or completing the registration process. Their toll-free number is 1-866-973.3131 or they can be reached at IPPCustomerSupport@fms.treas.gov.

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126)*. 11- EVALUATION FACTORS FOR AWARD

11.1 EVALUATION PROCESS

A contract will be awarded to the lowest-priced technically acceptable offeror. Proposals will be evaluated for acceptability but will not be ranked using the non-cost/price factors. In order to be eligible for award, offerors must receive a rating of “acceptable” in every non-price factor/subfactor. In the interest of economy and efficiency, the Government will start by evaluating the technical proposal of the lowest-priced offeror and will award to that offeror if the technical proposal is rated “technically acceptable”. If the lowest offeror receives a rating of “unacceptable” in any of the non-cost factors, the Government will then move on to evaluating the technical proposal of the next lowest offeror and so on until a proposal is rated “technically acceptable”. Therefore, the technical proposals of the non-low price offerors may or may not be evaluated.

The following factors and subfactors will be used to determine technical acceptability:

Factor #1: Technical

Subfactor #1: Technical Capability and Approach

In order to receive a rating of “acceptable” for this subfactor, proposal must, at a minimum, demonstrate adequate technical capability and provide a satisfactory technical approach to accomplish the work.

Subfactor #2: Experience

In order to receive a rating of “acceptable” for this subfactor, offeror must, at a minimum provide resumes for all key personnel and subcontractors indicating at least three (3) years of experience in current role on same/similar projects.

Subfactor #3: Worksite Safety

In order to receive a rating of “acceptable” for this subfactor, offeror must, at a minimum provide a Safety plan and have a satisfactory safety record with no more than one safety incident in the past three (3) years.

Factor #2: Past Performance

Subfactor #1: Recency and relevancy of present/past performance in relation to this effort

In order to receive a rating of “acceptable” for this subfactor, offeror must, at a minimum provide past experience on similar type projects. The past experience should indicate successes of the contractor in completing similar type work projects.

The Government considers “recent” present/past performance to be within the past 3 years

The Government considers “relevant” present/past performance to be present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.

Subfactor #2: How well the offeror performed on relevant contracts

In order to meet the minimum requirements for a rating of “acceptable” for this subfactor, the contractor must submit references from past projects as listed above.

The Government may also use past performance information obtained from other than the sources identified by the offeror. Information obtained from the Past Performance Information Retrieval System (PPIRS) database located at <http://www.ppirs.gov> is one of the sources that will be utilized. PPIRS functions as the central warehouse for performance assessment reports received from several Federal performance information collection systems and is sponsored by the DOD E-Business Office and administered by the Naval Sea Logistics Center Detachment Portsmouth.

NOTE: In accordance with FAR 15.305 (a)(2)(iv)), in the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, “unknown” will be considered “acceptable.”

PRICE: Award will be made to the lowest priced offeror that is evaluated as “acceptable” for all non-price factors.

QUALITY ASSURANCE SURVEILLANCE PLAN - (QASP)

1.0 INTRODUCTION

This quality assurance surveillance plan (QASP) is pursuant to the requirements listed in the performance work statement (PWS) entitled Janitorial Services (Fremont River RD/Fishlake NF) Loa Office. The Contractor shall provide janitorial services.

This QASP sets forth the procedures and guidelines Forest Service will use in ensuring the required performance standards or services levels are achieved by the Contractor.

2.0 PURPOSE

2.1 The purpose of the QASP is to provide Government *surveillance* oversight of the Contractor's quality control efforts to *assure* that they are timely, effective and is delivering the tasks specified in the contract. The QASP provides a means for evaluating whether the Contractor is meeting the performance standards/quality levels identified in the PWS and the Contractor's quality control plan (QCP), and to ensure that the government pays only for the level of services received. The required performance standards and/or quality levels are included in the PWS and in Attachment 1, "Performance Requirements Summary." If the Contractor meets the required service or performance level, it will be paid the monthly amount agreed on in the contract.

2.2 This QASP defines the roles and responsibilities of all members of the integrated project team (IPT), identifies the performance objectives, defines the methodologies used to monitor and evaluate the Contractor's performance, describes quality assurance documentation requirements, and describes the analysis of quality assurance monitoring results.

2.3 The Contractor, and not the Government, is responsible for management and quality control actions necessary to meet the quality standards set forth by the contract. The QASP is not intended to duplicate the Contractor's Management Plan. The Government may provide the Contractor an information copy of the QASP as an Attachment to the solicitation to support the Contractor's efforts in developing its plan for maintaining the levels of quality anticipated to be delivered under the terms of the contract.

3.0 ROLES AND RESPONSIBILITIES

3.1 The Contracting Officer

The contracting officer (CO) is responsible for monitoring contract compliance, contract administration, and cost control and for resolving any differences between the observations documented by the Contracting Officer's Representative (COR) and the Contractor. The CO will designate one full-time COR as the government authority for performance management. The number of additional representatives serving as technical inspectors depends on the complexity of the services measured, as well as the Contractor's performance, and must be identified and designated by the CO.

3.2 The Contracting Officer's Representative

The contracting officer's representative (COR) is designated in writing by the CO to act as his or her authorized representative to assist in administering a contract. COR limitations are contained in the written appointment letter. The COR is responsible for technical administration of the project and ensures proper government surveillance of the Contractor's performance. The COR is not empowered to make any contractual commitments or to authorize any contractual changes on the government's behalf. Any changes that the Contractor deems may affect contract price, terms, or conditions shall be referred to the CO for action. The COR will have the responsibility for completing QA monitoring forms used to document the inspection and evaluation of the Contractor's work performance. Government surveillance may occur under the inspection of services clause for any service relating to the contract.

4.0 METHODS OF QA SURVEILLANCE

4.1 Surveillance Techniques

In an effort to minimize the performance management burden, simplified surveillance methods shall be used by the government to evaluate Contractor performance when appropriate. The primary methods of surveillance are:

- **Customer Feedback** – Customer feedback may be obtained either from the results of formal customer satisfaction surveys or from random customer complaints. Customer complaints, to be considered valid, must set forth clearly and in writing the detailed nature of the complaint, must be signed and must be forwarded to the COR. The COR shall maintain a summary log of all formally received customer complaints as well as a copy of each complaint in a documentation file. The COR shall also keep the tabulated results of all customer satisfaction surveys on file and shall enter the summary results into the Quality Assurance Checklist.
- **Random Checks/Inspections on Completion of Workload Taskings** – Random checks will be conducted to ensure compliance with the intent of the Performance Work Statement and common commercial practices. The COR will conduct the random monitoring.

4.2 Customer Feedback

The Contractor is expected to establish and maintain professional communication between its employees and customers. The primary objective of this communication is customer satisfaction. Customer satisfaction is the most significant external indicator of the success and effectiveness of all services provided and can be measured through customer complaints.

Customer complaints, to be considered valid, must set forth clearly and in writing the detailed nature of the complaint, must be signed, and must be forwarded to the COR. The COR will accept those customer complaints and investigate using the Quality Assurance Checklist.

Customer feedback may also be obtained either from the results of formal customer satisfaction surveys.

5.0 DOCUMENTATION

5.1 Quality Assurance File

The COR will, in addition to providing documentation to the Contracting Officer, maintain a complete Quality Assurance file. The file will contain copies of all reports, evaluations, recommendations, and any actions related to the Government's performance of the quality assurance function, including the originals of all Surveillance Activity Checklists. All such records will be retained for the life of this contract. The COR shall forward these records to the Contracting Officer monthly, unless otherwise requested.

5.2 Contractor Performance Assessment Report System (CPARS) – **Not applicable to this contract**

An evaluation will be submitted through CPARS at the end of each year of performance. This evaluation will be one determinant in exercising an option. The COR will address the quality of the service, schedule, cost control and customer service and other important areas. As this information may affect future source selections throughout the Government, the annual evaluation will be used as an additional performance oversight and communication tool with the QASP.

6.0 RESOLVING PERFORMANCE ISSUES

6.1 Actions to Remedy Unacceptable Performance

When performance is deemed unacceptable, the COR will so inform the Contractor's on-site representative. Disputes should be referred to the CO for resolution. If any services do not conform to contract requirements, the Government may require the Contractor to re-perform the services to conform with contract requirements at no additional cost to the government. When sub-par performance cannot be corrected by re-performance, the Government may:

- Seek monetary or any other negotiated form of consideration, as well as require the Contractor to take action to reasonably ensure future performance conforms to contract requirements.
- By separate contract or otherwise, perform the services and charge to the Contractor any cost incurred by the Government that is directly related to the performance of such service.
- Issue Cure Notice.
- Issue Show Cause.
- Terminate the contract for government convenience.

- Terminate the contract for cause.

6.2 Problem Resolution

The COR, CO and Contractor should jointly formulate tactical and long-term courses of action. Decisions regarding changes to metrics, thresholds, or service levels should be clearly documented. Changes to service levels, procedures, and metrics will be incorporated as a bilateral contract modification.

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541. 400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as

laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A link to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards

Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
